// Practicing digital artist. Expertise in 3D digital media production and object design.

// Montreal local & Concordia University graduate (B.FA)

Experience

- **Independent art consultant & producer at Vitruvius Medical** (June, 2024 - Present)
Initially as a volunteer, provided artistic insights and production services to medical startup teams. After a month, became a paid contractor at the lab. Circulated between companies, providing unpaid and paid services as a producer for small businesses.
- **FuSion design and computation arts end of year exhibit** (April, 2024)
Designed and fabricated a musical instrument named "DigiLute" for the end of year undergraduate exhibit at Concordia. Selected projects stand to represent the artistic capacities of the fine arts and design faculty's student body. Prepared installation for viewing and offered demonstrations and insights for fellow attendees.
- **Concordia FASA Student Project Grant (SPG) recipient** (January, 2024)
Applied for and received a grant to pursue a personally-driven artistic endeavor. Using this funding, carried out two successful physical production projects: "BreakBot" and the above-mentioned "DigiLute". See my portfolio, AlexHenri.art for more.

Skills

- **3D Modelling** (Hard surface & sub-D modeling, game-ready assets, topology for animation and/or texturing, game engines, rendering pipelines, compositing)
- **Digital media** (Videography, digital movie production, audio creation, compositing, website design, Currently exploring installation technologies such as Arduino and R.Pi)
- **Game Design** (Game prototyping, playtesting, production pipeline, game jamming, Comfortable with the Unity game engine, blueprints/prefabs & node programming)
- **Programming** (Comfortable in C#, Javascript, HTML, Basic knowledge of Python, C++)
- **Curiosity** (Enjoys the process of learning, seeks knowledge and understanding)
- **Adaptability** (Adjusts easily to new situations, seeks to improve efficiency in routines)
- **Precision** (Always aims to deliver accurate and refined service and/or products)

Education

- **Concordia University**, Bachelor's Degree of Fine Arts, Computation Arts (2024)
- **John Abbott College**, Diploma (DEC), Pure and Applied Science (2020)
